PROFESSIONAL EXPERIENCE

Technical Project Manager | Jobsity LLC. - Jan 2025 – Present

- Oversee the technical performance and adaptation of engineering talent deployed to US client accounts, ensuring alignment with client coding standards and workflows.
- Facilitate the technical onboarding process and continuous integration of developers, proactively identifying risks and resolving blockers to guarantee long-term engagement success.

Web Developer | Jobsity LLC - Dec 2023 – Dec 2024

- Developed high-performance Front-End solutions for Civic Plus as a contractor, optimizing user experience and interface responsiveness.
- Implemented scalable Drupal architectures, ensuring compliance with web standards and accessibility requirements.

Mid Senior Developer | Bits Americas - Apr 2023 – Dec 2023

- Engineered reusable WebComponents using Lit Element, significantly improving frontend consistency and development speed.
- Managed robust Backend development tasks within Drupal, enhancing system stability and data integrity.

Drupal Developer | ValueLabs (Infotree) - Apr 2022 – Feb 2023

- Implemented AMP (Accelerated Mobile Pages) to improve mobile load times and SEO rankings for a major US client. Built and maintained custom modules and themes for Drupal 9, operating within a rigorous Scrum framework.
- Managed individual task backlogs and technical deliverables, ensuring 100% adherence to sprint timelines.

Software Engineer | Cafeto Software - Jul 2021 – Apr 2022

- Led technical estimation and task planning, improving the accuracy of project timelines.
- Executed critical security updates and regular patches for Drupal 9 sites to mitigate vulnerabilities.
- Developed custom features tailored to specific client needs using JS, HTML, and CSS.

Web Developer | Netmidas - Feb 2021 – Jul 2021

- Managed development lifecycles for multiple US-based accounts, ensuring effective communication and requirement gathering.
- Maintained and migrated Drupal 7 and 8 sites, handling complex backend configurations and Linux server environments.

Web Developer | Project Manager & Tech Lead - SeeD EM - Dec 2016 – Feb 2021

- **Leadership:** Progressed from Developer to Tech Lead, managing development teams and serving as the primary technical point of contact for clients.
- **Strategy:** Led project estimation, resource allocation, and task planning, successfully opening and managing new US accounts.
- **Development:** Architected custom modules and themes for Drupal 7/8 ecosystems and implemented Docker-based workflows to streamline development environments.
